

# Leonard Anthony I. Gonzales

An enthusiastic and detail-oriented aspiring UI/UX and Front-end Developer seeking an entry-level or freelance role in a sprint-based development environment. Passionate about creating clean, user-friendly, and responsive interfaces using modern front-end technologies. Willing to continuously learn and improve skills in React, UI/UX design, and usability through hands-on project experience. Reliable and self-motivated, with strong attention to design details, the ability to follow project requirements, and collaborate effectively with a remote team to deliver high-quality outputs per sprint.
